

The Legend

This year, we are inspired by history, storytelling and trailblazers and our theme is **The Legend**.

Hercules, the lost city of Atlantis, Blackbeard's treasure – legends and myths are part of our culture.

Could you rewrite a famous legend with a twist, or from a different perspective? Maybe you could create your own myth, lost to history.

What myths and legends will people of the future tell?

Why do we tell them – do they inspire us, or warn us? Could a legend help explain our past, or hide it?

Legends could also be trailblazing figures in sports, science or art, inspiring individuals in history or in your own life.

What makes them a legend – hard work and determination to be the best, a lucky chance, or did they stand up for what they believed in.?

Remember, creativity and imagination are the most important part of any story and something that the judges will be looking for. **What makes your Legends-inspired story unique?**
